

PGMC\_ILTS Integrated Lottery System  
Secure. Reliable. Fast.

# PGMC\_ILTS Intelimark SST

Standalone, self-service terminal ruggedly constructed for use in high-traffic public areas

**ISO 9001:2015 Certified.**  
**ISO/IEC 27001:2013 Certified.**  
**WLA-SCS:2016 Certified.**

The PGMC\_ILTS Intelimark Self-Service Terminal (SST) is a powerful distribution channel that can help lotteries increase sales and provide added convenience for its customers. Players can easily purchase online games from their accounts, using cash, winning tickets, or credit/debit cards. The dynamic color touchscreen displays welcoming information and prompts players through the wagering process quickly and efficiently with easy-to-use Graphical User Interface.

This stylish kiosk is weather resistant, and has no flat surfaces for drinks to be placed on. Secure and ruggedly constructed, the PGMC\_ILTS Intelimark SST is ideal for public venues such as malls and supermarkets. The optical mark reader accepts playslips and permits players to scan tickets from previous draws to determine whether or not the ticket is a winner.

The PGMC\_ILTS Intelimark SST is available with an optional signboard LED display allowing the lottery to broadcast images and messages to drive sales and capitalize on market opportunities.

- ◆ Expand lottery distribution into new locations
- ◆ Attract new players who prefer self-service
